

California OES Weather Threat Briefing

Friday, June 11, 2021
9:00 AM PDT

Day 1 (Friday): Locally gusty winds across the southern California mountains will bring some elevated fire weather conditions at times this afternoon and evening.

National Weather Service
Western Region Headquarters
Regional Operations Center
Salt Lake City, UT

WEATHER KEY POINTS

06/11/21 - 06/17/21

Friday - Thursday

- Locally gusty winds are expected into early next week across the Sierra and southern California mountains, bringing periods of elevated fire weather conditions
- Periodic showers are expected across today through the weekend across far northwest California, with localized rainfall amounts of one-half inch or more, especially across Del Norte and Humboldt Counties. Dry weather will continue through much of next week for the remainder of the state.
- Temperatures will gradually warm through the weekend, with a significant warming trend expected for the middle and end of next week as very hot temperatures develop for much of the state
 - High to Very High heat risk is likely for the Central Valley and inland southern deserts beginning Wednesday and persisting through late week
